## **BUSINESS ETHICAL BEHAVIOURS:**

Ethics starts at the top the Lazuli Pamir Consulting Engineering Services Co. We have and implement our ethical behaviour policy and codes to all company personnel from the owner to the executives in all related departments such as ways of communication, delivery of services, incorporating comments to clients and customers, individuals and other parties.

Lazuli Pamir Consulting Engineering Services Co has a written policy and codes of ethical behaviour that every employee is going to review and acknowledge upon hire and on a regular basis thereafter.

Lazuli Pamir Consulting Engineering Services Co Ethics Codes gives our employees guidance on our business matters and business communication and deals.

Our ethical behaviour policies help us run business by giving our employees concrete ideas about what is right and what is not accepted in the workplace, without the need for constant management presence to supervise them. Ethical policies are guidelines for all employees of a company to do the right thing and behave at high standards at all times. Good ethical policies create a good culture based on trust and transparency. They promote moral conduct, and they benefit customers as well, as happy employees develop happy customers who keep coming back.

Lazuli Pamir Consulting Engineering Services Co employees are expected to act in accordance with the Company's high standards of honesty, integrity, and fairness to foster a business climate that maintains such standards. Also, our employees are adhering to the Company's Code of Business Principles and Conduct, and any applicable code of conduct.

Per our ethical behaviour policy and codes, Lazuli Pamir Consulting Engineering Services Co and our employees are avoiding any conflicts of interest between themselves and the Company. A conflict of interest situation can arise in many ways for example we will avoid any activities in any forms or way to keep interest of our clients and costumer safe and free of confliction with other interest.

## **CONFIDENTIALITY:**

Lazuli Pamir Consulting Engineering Services Co recognizes the need to insure the confidential information is securely stored, processed and protected in accordance to legislations and contract. We insure that all document for any delivered services is highly protected and stored per international legislations and conditions of contracts for the services.

Any documents or parts of document will not be shared to any other parties unless of the official written permission from the respected related party.

We strongly believe that data protection is essentially the law that governs what may or may not be done with documents and information. Such information or document may be in electronic form (Computer files) or hard form (paper files).

All records, reports, documents, printouts or other printed material containing identifiable or confidential information should be treated as confidential and will be kept secure at all times. Identifiable data stored electronically going to be stored only on devices that have adequate security measures in place.

We will not keep any data, documents or information for longer than is necessary. The Lazuli Pamir Consulting Engineering Services Co management policy provides guidance on minimum retention periods and disposal of records.

All disposable materials such as reports, documents, printouts or other printed material containing identifiable or confidential documents or information is going to be disposed securely. The Lazuli Pamir Consulting Engineering Services Co provides a secure confidential waste disposal service which should be used to dispose of disposable documents containing identifiable or confidential documents and information.

Lazuli Pamir Consulting Engineering Services Co has a confidential policy to keep information and documents about clients, staff and other individuals confidential and to protect the privacy of information about clients, contractors and other parties.

# DUE DILIGENCE:

Our Operational Focus Helps You Identify Risk and Avoid Costly Errors.

Lazuli Pamir Consulting Engineering Services Co offers due diligence services to ensure properties can meet a project's schedule, budget and risk expectations. We manage due diligence activities, such as geo-technical services, boundary surveys, site plan development, storm water development plans, utility service commitments and zoning and building code assessment. Lazuli Pamir Consulting and Engineering Services Co, multi-discipline investigation is unique to each site. Our process establishes cost and risk dimensions associated with the project.

Due diligence services include:

## **Environmental Assessment:**

Lazuli Pamir Consulting Engineering Services Co evaluates existing reports, obtains proposals from qualified environmental consulting firms, and audits to assess the presence of wetlands, flood plains, hazardous wastes, underground storage tanks and contaminated soils. Lazuli Pamir Consulting Engineering Services Co will proceed to Phase 2 evaluation, if warranted.

## **Geo-Technical Analysis:**

Lazuli Pamir Consulting Engineering Services Co evaluates existing reports and, if required, locates areas within the property to define soil characteristics and determine whether conditions are compatible with the proposed structure and facility. We obtain proposals from qualified soil-testing firms and review with management for contract award.

## **Risk Management:**

Lazuli Pamir Consulting Engineering Services Co develops a due diligence checklist for the finalist sites to establish which activities need to be conducted to get the property prepared on time and meet the initial start-up deadline.

## **Zoning, Building Code Review:**

Lazuli Pamir Consulting Engineering Services Co outlines the applicable zoning issues, building code requirements, jurisdiction agency regulating permits, inspections and review schedule for approval process.

## **Fees and Surcharges Evaluation:**

Lazuli Pamir Consulting Engineering Services Co verifies all applicable permit fees, surcharges, impact fees, connection costs, utility usage rates and other charges that may apply to utility services at the community level.

## **Permitting Schedule Review:**

Lazuli Pamir Consulting Engineering Services Co develops the approval process and schedule for obtaining permits.
